

## Short Biography

My name is Forrest Blount and I live in wonderful Chillicothe IL. Chillicothe is a town of 6,000 people so I kind of get the rural feel, however it is only 20 minutes from Peoria IL which has about 150,000 people. I graduated for Illinois Valley Central High School in Chillicothe IL in 2007. At this time I am going for my Bachelor Degree in Graphic Design at Robert Morris. My whole life I have been fascinated by art including music. At the age of 8 I was messing with my parents camera's, and found it amazing how it stored a picture of an event or something creative. Even though I am going for my Bachelor's Degree in Graphic Design, I am fascinated in photography. My plan is to do photography on the side, but also implement photography heavily in my artwork if possible. Photography gives a realistic feel to the artwork, and just adds to the experience that a person gets while looking at the artwork.
