LANDSCAPE

“I didn’t want to tell the tree or weed what it was. I wanted it to tell me something and through me express its meaning in nature.”

“No place is boring, if you’ve had a good night’s sleep and have a pocket full of unexposed film.” ~ Robert Adams, Darkroom & Creative Camera Techniques, May 1995

My name is Haley Grace. I am a midwest photographer originally from Gridley, IL. I have recently found the passion for macro photography in landscape, still life and people photography. Finding the natural beauty in items and bringing them out in ways people do not think off is important to me. I am always trying to come up with new ideas, and new ways to shoot. I love intense color and abstract photography. For more information please go to my website at nhj-studios.com
